## CARE & MAINTENANCE

### TIMBER:

Timber is a natural product that will respond differently to each environment. We recommend you avoid extreme variation in temperatures and contact with liquids and heat. We recommend wiping down the timber regularly to remove dirt or dust. We do not recommend leaving any liquids sit on the timber surfaces as it will penetrate the timber and may cause staining. If you do spill water on the timber, we recommend wiping up the spills immediately with a cloth. The tone of the timber will change over time if it is exposed to UV light, so we recommend protecting the timber from direct and reflected sunlight.

### POWDER COAT METAL:

We recommend regularly wiping down the metal with a damp soft cloth to remove particles which can cause the surface to wear. Avoid any contact with liquid, heat and direct sunlight. We recommend soapy water to wipe down the surface.

### BLACKENED STEEL:

Blackened steel can oxidize over time and will provide a beautiful changing patina. Each table is unique & will show a range of variations. For cleaning please use a soft cloth & mild detergent.

### BRASS:

Being a natural product, be aware that the brass will age in time but that is the beauty of a natural material. For cleaning please use a soft cloth and mild detergent.

## WARRANTY

- Period of 3 years for the structural integrity of the furniture under 'normal use'.
- Chipping and scratches on powder coated metal due to wear and tear are not warranted.
- Metal pieces that are not specific to outdoor use that are exposed to the elements are not warranted.
- Raw metals oxidise and tarnish over time and are not considered faults of manufacturing.
- All materials sourced by external and independent suppliers that have unique and specific warranty details that can be obtained as required on request.
- Broken, missing or ceased attachments like leveling feet, rubber stoppers and felt pads are not warranted.
- Natural materials like solid and veneer timbers can vary in colour, natural figuration and texture. These are not considered faults.
- Movement, joint separation, bowing as a result of fluctuations in temperature and any damage caused by direct sunlight are not warranted.
- Day to day use and wear & tear that can cause scratches, expansion, colour changes, chips, burns, splits are not warranted.
- Painted and stained timber can chip, this is not warranted and considered as wear and tear through use of the item.
